

ATTENDEES: Veronica Craw, WMA 4 PAC Chairperson, PVSC; Dr. Richard Pardi, WPU; Pat Rector, NJDEP, Watershed Management; Dr. Mike Sebetich, WPU; Dr. Marion McClary, FDU; Laura Hilton, Watershed Ambassador; Thess Prince, WHNA; Russ Furnari, PSEG; Paul Russo, Bloomfield College; Nick Agnoli; Garden State Engineers. ????????

HANDOUTS:

- **Agenda**
- **PowerPoint slides ‘SFY 2005 319(h) NPS RfP and Grant Guidance’**
- **Integrated list spreadsheet of impaired waterbodies in WMA 4**

If you were not at this meeting and would like a copy of any handouts, please contact Pat Rector at NJDEP, (609) 633-8173.

The meeting was called to order at 6:30 PM. The meeting adjourned at 8:25 PM.

MEETING HIGHLIGHTS

PURPOSE OF MEETING:

- ◆ **TMDL Implementation Work Plan**
- ◆ **Priority Stream Segment Project**
- ◆ **Impaired Waters Listings**

Summary of Discussion:

Topic: Welcome and Introductions

Russ Furnari

Russ Furnari welcomed all members.

Summary of Discussion:

Topic: TMDL Implementation Work Plan

Pat Rector

- Stakeholders will need to ‘adopt’ pieces of streams
 - Goffle Brook – William Paterson Univ
 - Molly Ann Brook – not on Sublist 5
 - Preakness – NJCWW students
 - Diamond Brook - ?
 - Saddle River @ Lodi - PVSC
- What is purpose of visual assessment sheet? To produce a clear outline of possible restoration projects. One sheet per segment then attach pix of pipes. The pipes may signify a ‘hot’ area.
- TAC needs to create a cover sheet with detailed instructions for the visual assessment data sheets.
- TAC wants accessible data for near future use.
- Stakeholders should try to mark the goose feeding areas on the map with a highlighter.
- There is a possibility that we will overestimate the # of geese.
- Pat Rector is compiling the stream assessment assignments
- Request: Veronica to send electronic versions of the TMDL maps to TAC.
- Aerial coverages are available on the NJDEP GIS website at www.state.nj.us/dep/gis under ‘Downloads’ then ‘Aerial’.
- The TACs monitoring QAPP hasn’t been approved yet. It’s being reviewed by Marc Ferko.

Summary of Discussion:

Topic: Stream Prioritization

Pat Rector

- Check wasn’t sent to WPU due to some problem with WPU. Pat and Dr. Pardi will follow up on their respective ends.

Summary of Discussion:

Topic: 319(h) Grant Guidance

Pat Rector

- Please refer to handout.
- Dr. Pardi will file an ‘intent to apply’ form. It is not necessary for WMA4 to have a definite project planned yet due to the \$ situation (see above).

Conclusions/Actions:

- Pat get results from EWQ sampling if available
- Pat will try to get map with CSO coverage.
- Veronica will try to locate electronic TMDL maps.
